

It is Obligatory Upon the Muslims to Warn Against Jamaa'ah At-Tableegh¹

By Shaykh Allaamah Saalih Ibn Fawzaan Ibn Abdillaah Ibn Fawzaan
Translated by Abu Abdillaah Hassan As-Somali

I have looked at the book which is called (Kashf As Sitaar amma tahmiluhu ba'd ad Da'waat min Al Akhtaar) and this is aimed at Jamaa'ah At Tableegh who have occupied the people in this era and this Jamaa'ah is astray in their Aqeedah (Creed), Manhaj (Methodology) and their foundation, as has been made clear by those who are well acquainted with them, a fact which has become widespread concerning them which leaves no place for anyone to doubt the misguidance of this group and the impermissibility of aiding, cooperating and going on Khurooj with them.

So it is **Obligatory upon the Muslims to be cautious of this group and to warn against them.** I advise those in charge of this Jamaa'ah to repent to Allah and to return back to the methodology of Ahlus Sunnah wal Jamaa'ah in calling to Allah and that they start with their own land India and Pakistan by calling them to Allah.

And Allah ﷻ said:

"And warn your tribe (O Muhammad (sallallaahu alayhi wasallam)) of near kindred." [Ash-Shu'ara:214]

And Allah ﷻ said:

"That they may warn their people when they return to them, so that they may beware (of evil)." [At-Tawbah:122]

And Allah ﷻ said:

"O you who believe! Fight those of the disbelievers who are close to you, and let them find harshness in you, and know that Allâh is with those who are the Al-Muttaqûn." [At-Tawbah:123]

They should concentrate on correcting the Aqeedah as it is the foundation (of the religion) and because the Messenger ﷺ and the other Prophets started their call with this and any Da'wah which is not established on this foundation is a futile call. And either the Tableeghiyyoon accept this advice and (if they don't) then verily I warn all of the muslims against their Da'wah to prevent them corrupting their Aqeedah and fooling the children and ignorant ones, especially in this land (Bilaad ul Haramain), the starting place of the Da'wah of Muhammed and a place which is an example for the whole Islamic world.

"It is permissible for the one who possesses knowledge to accompany Tableegh to teach and direct them to the truth."

Shaykh Fawzaan said commenting on the above statement:²

"Verily these people (Jamaa'ah Tableegh) do not forsake the truth due to them being ignorant of it but rather they abandon the truth because they do not seek the truth.

All they want is to hold on firmly to their methodology which they advise one another to stick to, pledge allegiance to (Bay'ah) and warn against everything that opposes it from the correct Aqeedah which is derived from the Book and Sunnah upon understanding of the salaf.

They do not go to the people (hoping) they will accept the call or to call them to tawheed instead they misguide them by their madhab and manhaj.

So the call to accompany them on Khurooj as to call them to the truth is a call which is worthless."
